

Donka Loose Tomato

Features

Plant

Vigorous and resistant plant with short internodes. It performs well in cold conditions. Excellent flowering and fruit set.

Fruit

Round tomato of size 2. It is distinguished by retaining its shape and size until the end of the crop. It has an attractive red colour, its texture is dense and firm, together with an excellent holding.

Resistances

Fol: 0-1, ToMV, Va, Vd

TYLCV, TSWV
