

Efren Oval Tomato

Features

Plant

Variety with intermediate-high vigour, short internodes and open structure. It stands out for its balance between vegetative and generative growth. Tolerant to low and high temperatures.

Fruit

Elongated and oval fruits, with a magnificent colour, brightness and firmness. This variety has clusters of 6 to 8 fruits, which guarantees fruits of large calibre. It has a very low percentage of destruction.

Resistances

HR Fol:0-1, Va, Vd, ToMV, Pf
