

Sidi Blocky Pepper

Features

Plant

Very vigorous plant with an open growth habit. It stands out for the high quality of the fruits in the top part of the plant. Variety suitable for late and extra-late crops.

Fruit

Fruits of G-GG caliber, dark green and intense red color. Predominance of four lobes. Excellent conservation in the plant and post-harvest. Very good behavior against microcracking.

Resistances

 Tm 0-2 (L3)

 TSWV
