

Loyal to our desire to develop our quality management system, and to be an essential reference for our clients in the field of research, development, and innovation in seeds.

The management of the company **CAPITAL GENETIC** has opted for the implementation of a quality management system in accordance with the international standard ISO 9001:2015.

To this end, we are committed to deploying our quality policy according to the following strategic axes:

- The establishment of an efficient quality management system.**
- Ensure the human and material resources necessary for the deployment and efficiency of our quality management system.**
- Investigation permanent to improve the performance of business in terms of developing new markets.**
- Comply with legal and regulatory requirements, as well as other requirements applicable.**
- Engage and train all our employees to meet the requirements of quality.**
- Listen to and satisfy the requirements and expectations of our relevant stakeholders.**
- Ensure effective communication of our quality policy to all internal and external stakeholders.**
- Development of research and design of new varieties.**
- The continuous improvement of the effectiveness of the quality system aims to keep pace with market developments.**
- Improving customer satisfaction.**

Each of us must be involved in this process, ensuring that work is consistent with these policy areas, minimizing risks and seizing opportunities, with a view to continuous improvement.

“QUALITY IS EVERYONE’S CONCERN.”

General Director
