

Downia Naf Hot Pepper

Features

Plant

Open-habit, highly vigorous plant with continuous flowering and good regrowth capacity during winter months. Recommended for greenhouse transplants from July to September, where it ensures steady and productive development.

Fruit

NAF-type fruit, highly tolerant to cracking. Excellent color both in green and red, with very good shelf life. Average size: 18 cm long by 2.5 cm wide. Maintains a high level of pungency (capsaicin) even during cold months.

Resistances

HR Tm: 0-2 (L3)
