

CGT3116

Brown Cherry Tomato

Features

Plant

Very open-habit plant with small, very dark green leaves. Stands out for its strong plant health, high productivity and rapid entry into production, growth and ripening.

Fruit

Oval brown cherry tomato (GBS), weighing 15–20 g, with intense and glossy color. Excellent shelf life, exceptional flavor and high Brix potential, ideal for the gourmet or premium segment.

Resistances

Fol: 0–2, ToMV

TYLCV, ToBRFV
